2010 INTERNATIONAL Study of EYE HEALTH & VISION CARE General Population Survey

This report provides international marketers with an overview of common eye conditions, sufferer demographics and use of popular treatments, detailing...

Prevalence of and concern for various eye conditions and diseases, including awareness of risk factors for eye disease
Perceptions of current status of eye health and preventive practices used to maintain eye health
Knowledge of eye health products and conditions
Vision correction needs and incidence of eyeglass and/or contact lens wear

Offered in it's entirety or separately for **WESTERN EUROPE (France, Germany, Italy and the United Kingdom)** or **ASIA (China and Japan)**, reports incorporate selected comparative data from a similar study in the United States, also conducted in 2010.

REPORT EXCERPT –

“Recommendations to avoid sunlight and wear sunglasses are more often made by Western doctors while doctors in Asia are more likely to make recommendations for use of eye drops.”

Europe – \$13,500. Asia – \$19,300. Europe & Asia – \$29,500.
(subject to New Jersey or New York sales tax where applicable)
